1. CORE SERVICES

Core UPS delivery options
UPS is a fully integrated delivery service, offering the most comprehensive range of services. UPS can help you send your goods domestically or internationally, using three time and day-definite express services to ensure your goods arrive on the scheduled day by 9.00am, 10.30am, typically by 12.00 noon or by the end of day. Additionally, UPS offers economical alternatives for your less time-sensitive shipments. Import services are also available. Check import rates in the 2021 UPS Tariff Guide or click on ‘Zones and Tariffs’, under the ‘Calculate Time and Cost’ section of www.ups.com.

When you ship with UPS, you can expect:
• Excellent service reliability
• Money-back guarantee¹ for UPS Express services
• Up to three delivery attempts²
• Online shipment preparation options
• Full visibility for your shipments
• Convenient city centre shipping locations
• A delivery company respected and recognised by your customers worldwide.

Full details of UPS’s additional services and charges can be found in Section 2 of this guide.

Some service limitations apply to customers located in Northern Ireland. To confirm service availability and time in transit details, please contact UPS on 03457 877 877.

If a specific service is not indicated by you, the shipment will automatically be sent and billed as UPS Express where available.

¹ Money-Back Guarantee
Restrictions apply. Money-back guarantee will cover a refund upon request of your shipping costs if we do not attempt delivery by the applicable time. For full details, refer to our money-back guarantee section and our Terms and Conditions of Carriage.

² Not applicable for UPS Worldwide Express Freight.

2. ADDITIONAL SERVICES AND CHARGES

In this guide you will find information about the additional services available from UPS. These include:

- UPS Online Shipping Solutions
- UPS Visibility Services
- UPS Collect on Delivery and Billing Solutions
- UPS Returns
- UPS My Choice
- UPS Import Control
- UPS Trade Direct
- UPS Proactive Response
- UPS World Ease
- UPS TradeAbility
- UPS Mail Logic
- UPS Mail Boxes Etc.®
- UPS Access Point
- UPS Brokerage Services
- UPS Paperless Invoice

How to calculate the total shipping cost:

1. Calculate the shipping charge for sending or receiving a shipment (Refer to the 2021 UPS Tariff Guide, sections 2 and 3).
2. In this section, look up the charge for any additional service that might apply to your shipment. Please note that some charges are per package and some are per shipment. All packages covered under one waybill shall be considered a single shipment.
3. Add the two amounts together to find the total cost for your shipment (excluding customs or excise duties and taxes).

Unless otherwise indicated, charges for additional services will be billed to the payer and apply to all UPS service options.

The rates and additional charges detailed in this publication are effective 28 December 2020.

The latest information can be found on the UPS website [www.ups.com](http://www.ups.com) or may be confirmed by contacting the UPS Customer Service Centre on 03457 877 877.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

UPS Returns Services

| UPS Prints and Posts Return Label | UPS prints and posts return labels to your customer. This is suitable for a variety of circumstances such as product recalls. Once applied, your customer can arrange a collection with UPS. For service availability please see notes below. | GBP 1.28 per package and not applicable to the relevant receiving shipping costs. |
| UPS Print Return Label           | Enables you to generate a label and include it in an outbound shipment to over 135 countries worldwide. You may also distribute the labels separately after your shipment has been sent. Customers then simply apply the label to their package and either bring the package to a UPS-authorized collection point or arrange a collection with UPS. For service availability or for UPS location details, please call UPS on 03457 877 877 or visit www.ups.com. | GBP 1.30 per package and not applicable to the relevant receiving shipping costs. |
| UPS Electronic Return Label      | UPS electronically provides a return label to your customer through a variety of formats, including email, UPS tracking results or with a mobile barcode. The UPS driver will then deliver the replacement item and collect the returned item. You can also auto-authorise return shipments of packages that meet the parameters agreed upon by you and UPS within the UPS Returns Manager portal. Payment of the return charges are your responsibility regardless of when the package is tendered. For service availability or for UPS location details, please call UPS on 03457 877 877 or visit www.ups.com. | GBP 1.56 per label. |
| UPS Authorised Return Service    | A contractual service designed for high-volume shippers who return products with a similar size, weight or value, such as printer cartridges. It enables you to order pre-printed return labels from UPS to include in your outgoing shipments or mail separately. Your customer then simply applies the label to the package and arranges a collection with UPS. | A contractual service. |
| UPS Returns Exchange             | A special service, in which a UPS driver delivers a replacement item and, during the same delivery, collects a similar item to be returned. The packaging for the replacement item is reused for the collected item, ensuring the returns process is quick and efficient. This contractual service is ideal for warranty replacements and product exchanges. | GBP 12.95 per package in addition to the relevant sending and receiving costs. A contractual service. |
| UPS Returns Pack and Collect     | A customizable service that gives you complete control over a return. Schedule the returns collection at a designated location and time frame. A UPS driver will then deliver UPS-provided packaging and collect the item to be returned. You even have the choice of one or three collection attempts, depending on your needs. | A contractual service. For one collection attempt, in addition to the relevant receiving costs: GBP 11.58 for collections with a small, UPS-provided box. GBP 14.75 for collections with a medium, UPS-provided box. GBP 15.85 for collections with a large, UPS-provided box. For three collection attempts, in addition to the relevant receiving costs: GBP 14.75 for collections with a small, UPS-provided box. GBP 16.21 for collections with a medium, UPS-provided box. GBP 18.14 for collections with a large, UPS-provided box. |
| UPS Returns Manager²             | A portal located on ups.com where shippers can manage their company’s return policy for a specific account number and where each shipment becomes “pre-authorised” for the customer to make a return. Consumers can then access a return shipping label simply by tracking a delivered package. Consumers can either print a return label themselves, email it to be printed or get a mobile barcode. The mobile barcode allows them to drop off their return parcels without a label in a UPS Access Point location. | Free of charge. |

Easy Access – UPS Returns are instantly accessible. All services can be used with UPS’s free shipping systems: UPS Internet Shipping, WorldShip, UPS CampusShip or host-to-host EDI systems.

Notes
- For domestic and intra-EU return shipments, the entire return process can be handled with just the return label. There is no contract with the returning party.
- Shipments to or from countries outside the EU require both a return label and a commercial invoice in order for the shipment to pass smoothly through customs. Regulations and requirements for documentation for individual commodities vary from country to country. It is essential to review commodity-specific documentation stipulations for both the country of origin and the country of destination. Depending on the commodity and its use, special licensing and notations for accompanying documentation may be required.
- If the international shipment is returned to a different country than where the requesting party resides, a customer contract will be required.
- UPS 1 Attempt and UPS 5 Attempts Returns Plus are available for collection in the EU plus the following countries or territories: Canada, Liechtenstein, Mexico, Puerto Rico, Russia, Switzerland, United States.
- UPS Prints and Posts Return Label is available for retrieving goods within the EU plus the following countries or territories: Australia, Brazil, Canada, China, Hong Kong, India, Japan, Liechtenstein, Malaysia, Mexico, Norway, Philippines, Puerto Rico, Russia, Singapore, South Korea, Switzerland, Thailand, United States.
- Transportation charges for return packages are billed after entering the UPS system. UPS Prints and Posts Return Label, UPS 1 Attempt Returns Plus and UPS 5 Attempts Returns Plus, UPS Returns Exchange and UPS Returns Pack and Collect accessorial fees are billed at the time of request. UPS Print Return Label, UPS Electronic Return Label and Import Control fees are billed after the corresponding package enters the UPS system.
- All UPS Returns are subject to UPS’s Terms and Conditions of Carriage.
- When an on-call collection is requested in Belgium, France, Germany, Italy, the Netherlands, Poland, Spain, or the United Kingdom, for a return with UPS Print Return Label, UPS Electronic Return Label or UPS Prints and Posts Return Label, fees may apply. On-call collection fees are billed to the requester at the time of request or can be paid in cash upon collection of the return.
- Please refer to the “Additional Services and Charges” section for further details.
- A charge for the ‘schedule a collection’ service may apply.
- All charges for our additional and optional services are shown exclusive of taxes. Where applicable, VAT will be chargeable at the standard rate.
- Not applicable for UPS Worldwide Express Freight.
## What optional services are available from UPS?

<tr>
<td><strong>Declared Value for Carriage</strong></td>
<td>UPS automatically protects every shipment against loss or damage, up to a certain value, as described in the declaration. With Declared Value for Carriage, you may increase UPS’s limit of liability for proven losses by declaring a higher value for carriage on the UPS shipping documentation. The value of the goods declared shall not in any event exceed USD 10,000 or its local currency equivalent per package. Refer to UPS’s Terms and Conditions of Carriage for more information.</td>
<td>1% of the value of the goods declared for carriage or a minimum of GBP 6.00.</td>
</tr>
<tr>
<td><strong>Book-ins¹</strong></td>
<td>Where customers wish, by pre-arrangement, to schedule a specific delivery time, a surcharge will be applied for storing each package or shipment until the time of delivery.</td>
<td>GBP 4.63 per package, subject to a minimum charge of GBP 1.73 per shipment per 24 hours will be billed to the shipper.</td>
</tr>
<tr>
<td><strong>Signature Required</strong></td>
<td>Normally, UPS requires the signature of the receiver for all deliveries. As an exception, deliveries in certain countries are allowed on “Driver release” (delivery in a location in the receiver’s premises without the need for a signature) or on “Letter box release”. Letter box release is a secured release by a service provider which will allow certain residential packages to be left in a safe letter box without a signature. Use Signature Required to prevent the use of “Driver Release” or “Letter Box Release” in applicable countries.</td>
<td>GBP 1.09 per shipment will be charged.</td>
</tr>
<tr>
<td><strong>Adult Signature Required</strong></td>
<td>Use Adult Signature Required to prevent minors from accepting deliveries of goods for legal or other reasons. This may apply to alcoholic beverages, tobacco products (see “shipping prohibited articles on a contractual basis with UPS” on Prohibited articles) or goods you prefer an adult to receive.</td>
<td>GBP 3.23 per shipment will be charged.</td>
</tr>
<tr>
<td><strong>Direct Delivery Only</strong></td>
<td>Direct Delivery Only ensures a package is delivered to the address on the shipping label. Packages shipped with Direct Delivery Only may not be rerouted, redirected or delivered to an alternate address. Direct Delivery Only is available for residential and commercial packages.</td>
<td>GBP 2.09 per package will be charged.</td>

UPS My Choice® lets your customers personalise their the last mile delivery experience.

UPS My Choice is a membership based service where members can self-enrol themselves via a simple sign up process based on email. Once enrolled, members can further define their settings to benefit from the following services:

• Set up one-time preferences which are applied to all future incoming packages.
  - Delivery alerts: Members can set up which delivery alerts they wish to receive via SMS, email or the UPS Mobile App such as Ship Notification, Day Before Delivery, Delivery Schedule Updates, Day of Delivery, Confirmation of Delivery.
  - Driver instructions: They can designate where they would like the UPS driver to always leave the package (e.g. porch). This option is only available with authorised shipment release. Members can choose from 13 different locations such as front door, rear door, garage, patio, concierge, etc.
  - Alternate Delivery Location: Members can send all home deliveries to a UPS Access Point® location for collection at a later time.
  - Define their name and address to improve package matching rate: even if UPS does not get always get email addresses in package information, we can still identify their packages.
  - Request UPS to hold all their incoming packages for a period of time when they are on vacation.
  - Access the online delivery planner to help manage and track upcoming home deliveries from UPS.
  - Receive 1 to 4 hour estimated delivery window in the delivery alerts.
  - Download the UPS Mobile App, where all their deliveries are in one place to easily manage them.

Delivery Change Options

UPS My Choice members also have the added benefit of being able to redirect and reschedule eligible UPS home deliveries when the parcel is on its way to be delivered.

• Reschedule delivery: Have parcels delivered on a different day.
• Deliver to another address: Redirect delivery to another address.
• Redirect to a UPS Access Point location: Redirect parcels to a nearby UPS Access Point location instead of having it delivered at home.
• Redeliver to my address: If UPS delivered parcels to a nearby UPS Access Point location because the receiver was not at home, the recipient can request that eligible parcels be delivered to the original address.
• Hold at a UPS Customer Centre: Have parcels held at a customer centre for a period of time.
• Leave with Neighbour: Have packages left with an immediate neighbour.
• Leave at Instructions: Designate where the driver should leave the package (e.g. porch). This option is only available with authorised shipment release. Authorisation can be given online to UPS.

UPS My Choice therefore helps shippers to:

• Increase the probability of successful first-time deliveries.
• Reduce service calls associated with tracking parcels and returns.
• Focus on providing superior customer service.
• Improve customers’ online shopping experience.

UPS Access Point™

UPS Access Point locations are UPS retail sites offering convenient parcel drop-off or delivery at a time and place that best suits your customers' needs. Utilising high street locations like newsagents, grocers and petrol stations, your customers can benefit from extended opening hours and improved convenience.

To view all UPS Access Point locations with its individual opening days and hours, please visit www.ups.com.

Services include:

**Ship to a UPS Access Point location**
You have the possibility to ship to a UPS Access Point location as a delivery option. When your customers order items, they can choose to have their shipments delivered to a UPS Access Point location. Your customers will receive notifications via email or SMS to let them know their parcel is ready for collection from the selected UPS Access Point location.

You can use any UPS Shipping system to ship parcels directly to a convenient UPS Access Point location for collection by your customer.

**Package Release Code**
You have the possibility to provide a PIN code to your customers, allowing them to designate a third party to collect packages on their behalf. This option also enables the use of the UPS Access Point network when the consignee's identity is unknown (i.e. field service technicians).

Please note:
- Specific weight and size limits apply for UPS parcels delivered to or dropped off at a UPS Access Point location:
  - The maximum weight (actual weight) per parcel is 20 kg
  - The maximum length per parcel is 97 cm
  - The maximum size per parcel is 300 cm in length and girth combined
- The declared value for “Ship to a UPS Access Point location” must be less than 5,000 USD (or its equivalent in local currency). Information on declared value per parcel for Prepaid Drop-Off can be found in the “Reference Information” section under Service restrictions.
- The UPS Access Point location will hold packages for a limited period of time. Please refer to www.ups.com/accesspoint in the country of destination for details on how long packages are held for and will be available for collection by you or a third party nominated by you. Packages not collected will be returned by UPS to the shipper as undeliverable.
- Before releasing any shipment at a UPS Access Point location to you or another person on your behalf, the UPS Access Point location may require that sufficient verification of identity be produced. Please refer to www.ups.com/accesspoint in the country of destination for relevant ID requirements.
- Rates will be provided at the time of shipping except where rates have been contractually agreed.
- International Dangerous Goods and International Special Commodities are restricted from Ship to a UPS Access Point location service. For other restrictions please consult the ups.com/accesspoint webpage in the country of destination.

**Notification to Consignee and Delivery to UPS Access Point Location.**
UPS will deliver Ship to a UPS Access Point location packages to the designated UPS Access Point location. On or about the time of delivery to the UPS Access Point location, the tracking status for such package provided by UPS will reflect that it is available for collection (e.g., “Delivered to UPS Access Point location, Awaiting Customer Pickup”). Delivery attempts to the designated UPS Access Point location constitute a delivery attempt for the purposes of the UPS Money Back Guarantee. Delivery is deemed complete for purposes of the UPS Money Back Guarantee when the package is delivered to the designated UPS Access Point location.

**Personal Data**
The UPS Terms and Conditions of Carriage and UPS Privacy Notice apply to the processing of personal information in the context of the use of UPS Access Point services. In addition, UPS may, as a service provider on behalf of you or your customer and where available, provide by email, text or phone call notice of package status including but not limited to: (1) package is in the UPS system and en route to a UPS Access Point location, (2) package has experienced an exception or is delayed, (3) package is available for collection from a UPS Access Point™ location and/or (4) reminder notices that package is available for collection and will be returned to Shipper if not collected within a specified time frame (“Status Notice”). You, or you on behalf of your customer, represent and warrant that you have obtained informed and specific consent from the addressee (and will store such consent), as required under all applicable laws, rules, and regulations (including, where applicable, of the jurisdiction of addressee’s domicile) in order for UPS to use the addressee’s personal information to provide the UPS Access Point services and send to the addressee e-mails and other notifications relating to the UPS Access Point services, including without limitation Status Notices.

**Not at Home UPS Access Point Delivery**
Where available, after the first unsuccessful residential delivery attempt, UPS may deliver your customer’s parcel to a UPS Access Point location situated in their vicinity. If this happens, a UPS InfoNotice will be left, informing your customer that they can collect their parcel from a UPS Access Point location and when it can be retrieved.

**Prepaid Drop-Off**
By using a UPS Access Point location, your customers can send or return items more easily. Shipments with UPS shipping labels already attached can be dropped off at a UPS Access Point location that is convenient to your customers. Your customers can also return unlabeled parcels if they present a mobile barcode (on their phone) to the UPS Access Point location attendant.

**UPS Access Point mobile barcode shipping** where available, allows a person to drop off an unlabeled, sealed package at a UPS Access Point location by presenting their mobile barcode (on their phone) to the UPS Access Point location attendant.
How can UPS help with international customs clearance?

**UPS Export Brokerage Services**

Ensure your shipments cross borders quickly and arrive on time.

Every day, UPS reliably manages millions of customs clearances worldwide. Our experience and global knowledge can help you comply with local requirements and avoid customs-related delays.

Additionally, across Europe UPS has been granted or is actively pursuing Authorised Economic Operator (AEO) status as a compliant and trustworthy international supply chain partner. This EU accreditation means UPS shipments are fast-tracked through customs, helping us to speed up your supply chain.

**Routine customs clearance services are provided free of charge; non-routine customs clearance services are listed below.**

How can UPS help with international customs clearance?

**UPS Paperless™ Invoice**

This service enables you to submit your commercial invoice electronically when you ship internationally.

UPS is the first carrier to offer electronic invoices for international shipping. It's another way you can use technology to integrate order processing, shipment preparation and now commercial invoice data, making your business more efficient. So there's no need to print and apply multiple copies of paper invoices on shipments to destinations where Customs offices have the capacity to accept electronic forms.

Any company, regardless of size or industry segment, can use UPS Paperless Invoice. Best of all, UPS Paperless Invoice is free of charge. Enrolling is easy and can be done by visiting [www.ups.com](http://www.ups.com) and logging in with your My UPS ID. All you need is a UPS account number and digital images of your signature and company letterhead. You may also need billing invoice details for authentication purposes. Once you complete the enrolment process, you'll be able to ship with Paperless Invoice within 24 hours.

UPS Paperless Invoice works seamlessly with UPS shipping systems – UPS WorldShip, UPS CampusShip and UPS Internet Shipping.

**UPS Broker of Choice®**

This service enables importers to select their own customs broker for customs clearance of their UPS international shipments.

This service is available with the full portfolio of UPS shipping services and ensures that the established relationship with a Customs Broker remains in place while the importer works with UPS to save time and increase efficiencies in shipping and customs processes. Using UPS Broker of Choice provides full tracking visibility and enables importers to reduce fees and errors incurred while using multiple customs clearance processes.

**Importers have two options:**

UPS Broker of Choice OnSite is for shipments that remain in UPS possession while the importer's customs broker completes customs clearance procedures prior to UPS completing delivery of the shipment.

UPS Broker of Choice OffSite is for shipments moved “in-bond” directly to a customs controlled (bonded) warehouse (at the importer’s direction) where the importer's customs broker completes the customs clearance procedures. The UPS transport is complete upon delivery of the shipment to the warehouse.

UPS Broker of Choice also gives your broker advance access to shipping documentation at the UPS Import Clearance Alert website ([www.ups.com/import](http://www.ups.com/import)).

For the latest details and fees related to UPS Broker of Choice, please visit [www.ups.com](http://www.ups.com) or contact your local UPS sales representative.

**UPS FTZ Facilitator®**

This service gives importers and exporters the ability to use UPS to transport international shipments “in-bond” to and from a global Free/Foreign Trade Zone (FTZ).

This allows the shipment of goods to and from an FTZ without using other transportation providers. Having a single source transportation provider enables importers and exporters to increase visibility and tracking, and reduce the chance for errors and costs associated with utilising multiple transportation providers.

The process is really very simple. Importers will choose UPS FTZ Facilitator to direct shipments to be delivered, in-bond, to a designated FTZ rather than being cleared through customs. On the other side, exporters will choose UPS FTZ Facilitator to ship goods in-bond from an FTZ to an international destination. So whether you are importing or exporting this service can help you go global with confidence.

UPS FTZ Facilitator also gives you advance access to shipping documentation at the UPS Import Clearance Alert website for your broker and FTZ operator ([www.ups.com/import](http://www.ups.com/import)).

Service availability: Some service options are not available from all origins and/or to all destinations. For service availability, please visit [www.ups.com](http://www.ups.com) or contact your UPS sales representative.

Note: UPS Paperless Invoice, UPS Broker of Choice and UPS FTZ Facilitator are available on a contractual basis.
How can UPS help with the transport of items classified as Dangerous Goods?

UPS can carry the following categories of Dangerous Goods by air and ground to approved destinations. Most shipments of Dangerous Goods require a contract with UPS. In addition, shipping system and UPS label approval are required. To review the classes and commodities accepted by UPS and the approved origins and destinations, please visit ups.com.

Prohibited articles and service restrictions

Prohibited articles

The following articles are prohibited from shipment to all countries served by UPS (except by specific contract):

- Alcoholic beverages
- Animal skins (non-domesticated)
- Articles of exceptional value (e.g. works of art, antiques, precious stones, gold and silver)
- Dangerous goods/Hazardous materials (following IATA and ADR regulations)
- Firearms
- Furs
- Ivory and ivory products
- Live animals
- Money, negotiable items and pre-paid cards
- Perishable goods
- Personal effects (except to selected countries when shipped with participating Mail Boxes Etc. centres)
- Plants
- Pornographic materials
- Seeds
- Tobacco and tobacco products
- Unaccompanied baggage (except to selected countries when shipped with participating Mail Boxes Etc. centres)

The following articles are generally prohibited from shipment (except by specific contract). However, they are allowed between the countries listed at ups.com/jewelry (subject to the restrictions applying to all shipments).

- Unset precious stones and industrial diamonds
- Jewelry and watches (other than costume jewelry and costume watches) exceeding USD 500 or local currency equivalent per package¹

Personal effects in general include items owned by the shipper, intended for his or her personal use and owned for at least 6 months. The exact definition of personal effects (which is based in applicable customs rules) varies from country to country. Please consult the UPS call centre on 03457 877 877 for more information.

Unaccompanied baggage means suitcases, carry bags, backpacks, briefcases and other similar luggage items, regardless of content (except that they may be shipped if empty, unlocked and properly packaged in accordance with UPS guidelines).

Also prohibited are: goods moving under ATA Carnet; goods moving under FCR, FCT and CAD (Cash Against Document); shipments with inherent vice, which by their nature are likely to soil, impair or damage persons, merchandise or equipment; goods, the carriage of which is prohibited by law in the country of origin, transit or destination (e.g. ivory and ivory products), goods which attract excise duty (e.g. spirits) or which require special facilities, safety precautions or permits. Under applicable law, certain goods may be transported only under prescribed conditions and certain goods are prohibited from transportation by air (e.g. liquids in glass containers).

Shipping prohibited articles on a contractual basis with UPS

Certain items we list as prohibited may be accepted by UPS on a contractual basis for shippers with regular volume and the ability to comply with all applicable regulations.

UPS has put in place the International Special Commodities (ISC) program enabling customers to ship restricted items (e.g. items that require additional paperwork or inspections, or that are subject to spoilage) to specific destinations.

The following commodities may fall under the ISC program:

- Alcoholic Beverages
- Biological Substances, Category B, Exempt Animal Specimens and Exempt Human Specimens
- Plants
- Perishables (Fish and Meat)
- Seeds
- Tobacco
- Special exceptions

Not all commodities can be shipped to all countries.

This program requires a contract. For more information please call 03457 877 877 or contact your UPS representative.

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)
Prohibited articles and service restrictions

Alcoholic beverages

UPS offers an alcohol shipping programme, which allows customers to ship alcoholic beverages containing less than 70% alcohol in and between certain countries. A contract is necessary for shippers in the alcohol industry. Customers not in the alcohol industry can ship gifts within the EU without a contract.

If you ship outside the EU and into the EU, all shipments of alcohol must follow the import regulations of a destination country or the EU import regulations. You can contact your sales representative or refer to the UPS Alcohol Shipping Guide for more information about availability of specific destinations and documentation needed. Within the EU, alcoholic beverages may be shipped either excise duty paid or under duty suspension. They must, however, have an alcohol content of less than 70% and must be in containers with a capacity of 5 litres or less. Products such as alcohol are subject to excise duty regimes in all EU member states. As such, specific documentation or fiscal marks are required to accompany all international and some domestic shipments. Please note that UPS does not automatically obtain the consignee’s signature on the excise duty documents, nor does UPS automatically return these documents to the shipper. Detailed information on the excise duty regime is published by the European Commission and can be found online.

Packages containing alcoholic beverages should be clearly indicated as “alcoholic beverages” on the shipping label, waybill or other shipping documentation. Alcoholic beverages should not be included in a shipment containing non-alcoholic products. Furthermore, packages containing alcoholic beverages must be physically separated from others when prepared for collection by UPS. You can also contact your sales representative to inquire about packaging guidelines and obtain a list of UPS Approved solutions for alcohol.

UPS only agrees to deliver alcoholic beverages to an adult. Therefore, if you are shipping alcohol to a residential address, you must select the “Adult Signature Required” option (please see Section 2 of this Guide).

General obligations

It is the shipper’s responsibility to comply with current government regulations or laws applicable in each country. Shipments are subject to inspection and possible delay by customs or representatives of other government authorities.

We reserve the right to refuse or suspend transportation of any package which does not set out contact details for shipper and receiver and of goods which, in our opinion, are not practicable for transportation or are not adequately described, classified or packed and labelled in a manner suitable for transportation and accompanied by necessary documentation.

We will not transport any goods which are prohibited by law or regulation of any federal state or local government in the origin or destination countries or which may breach any applicable export, import or other laws or endanger the safety of our employees, agents and subcontractors or the means of transportation or, which in our opinion, soil, taint or otherwise damage other goods or equipment or which are economically or operationally impractical to transport.

UPS does not agree to carry any prohibited articles. Without prejudice to any other provision in these terms or the UPS Terms and Conditions of Carriage, if it comes to the attention of UPS that a package contains any prohibited article, you must pay to UPS an additional minimum administration fee of 120 GBP in addition to any other applicable charges. Payment by you of such fee does not in any way limit or exclude your liability to UPS resulting from the breach of the UPS Terms and Conditions of Carriage nor does it mean that UPS accepts any liability, or waives any rights, in respect of such prohibited articles.

Dangerous Goods

UPS adheres to the air transportation regulations outlined by the International Air Transport Association (IATA) and to the road transportation regulations outlined by the UN ADR and does not accept Dangerous Goods in its system – nationally or internationally. Local national regulations also apply for road transport.

Businesses which ship Dangerous Goods without appropriate labelling, documentation and packaging can face significant financial and legal penalties.

It is also important to remember the following when shipping with UPS:

1. If you are reusing packaging or cartons, please ensure that all old labelling is removed. Any Dangerous Goods labels on a package will cause the shipment to be held and inspected, causing service delays and inconvenience to you and your customer.

2. If you are shipping goods that could be potentially seen as Dangerous Goods but are not – because of their unusual name, appearance etc, it is advantageous to clearly declare on the shipping documentation that the goods are ‘not classified as Dangerous Goods’. This will ensure the shipment is not delayed unnecessarily. Any misdeclaration may lead to significant penalties for the shipper.
Service restrictions

UPS does not deliver to or collect from P.O. Box numbers.

The maximum value or declared value per package is USD 50,000 or local currency equivalent. The maximum value or declared value per pallet for Worldwide Express Freight shipments is USD 100,000 or local currency equivalent.

Notwithstanding the above, the maximum value or declared value per package of jewelry or watches (other than costume jewelry or costume watches¹) is USD 500 or local currency equivalent; provided, however, that in the case of shipments from and to countries listed at ups.com/jewelry, the maximum declared value per package of jewelry and watches (other than costume jewelry and costume watches¹), unset precious stones and industrial diamonds is USD 2,500 or local currency equivalent. Alternative risk mitigation solutions for higher value shipments may be available in select countries through UPS Capital.

COD service is provided within the UK, the EU, Liechtenstein, Norway and Switzerland. The maximum COD amount that can be collected is USD 50,000 or local currency equivalent per package for cheque transactions. COD service is not available for pallets.

The maximum amount of cash UPS will accept from a single consignee for a single shipper is USD 5,000 or local currency equivalent per day (maximum EUR 750 in France, and less than EUR 1,999.99 in Italy).

The maximum value and declared value per package for a domestic UPS 1 Attempt Returns Plus shipment is USD 999 and for a domestic UPS 3 Attempts Returns Plus shipment USD 50,000 or local currency equivalent. The maximum value and declared value per pallet for a Worldwide Express Freight shipment is USD 100,000 or local currency equivalent.

The maximum value and declared value per package for a drop-off in a Third Party Retailer or UPS Access Point location is USD 1,000 or local currency equivalent.

The maximum value and declared value per package for an international UPS 1 Attempt Returns Plus or an international UPS 3 Attempts Returns Plus shipment is USD 50,000, provided that for each such shipment with an actual or declared value in excess of USD 999, the shipper must ensure that a UPS high value shipment summary is generated and signed by the UPS driver upon tender of the shipment to UPS. If no high value shipment summary is obtained and signed, the maximum value or declared value of each such shipment is limited to USD 999.

Contact your UPS Customer Service Centre on 03457 877 877 for the local currency equivalent.

Weight and size limits

UPS has established specific weight and size limits for the packages that you send with all UPS services. The restrictions below only pertain to individual packages. There are no limits to the total weight of your shipment or the total number of packages in your shipment.

The maximum weight (actual weight) per package is 70kg².

The maximum length per package is 274cm.

The maximum size per package is 400cm in length and girth combined.

Packages that weigh more than 25kg require a special heavy-package label.

Packages with a large size-to-weight ratio may have a dimensional weight greater than actual weight. In that case, UPS will charge based on dimensional weight.

Packages that require additional handling may be subject to the Additional Handling Charge.

Packages that exceed certain size restrictions but do not exceed UPS’s maximum size per package may be subject to the Large Package Surcharge.

Packages that exceed UPS weight and size limits are not accepted for transportation. If found in the UPS small package system, they are subject to the Over Maximum Limits charge.

---

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

² The limits listed above apply to most packages and destinations, but there are some variances because of different local restrictions in some countries. Please contact your UPS Customer Service Centre on 03457 877 877 for details.
UPS Money-Back Guarantee

Money-back guarantee

For certain services and selected destinations UPS offers a free money-back guarantee on the shipping charges. To find out if it applies to your shipment, use the 'Calculate Time and Cost' tool at www.ups.com and key in your shipping details. Alternatively, contact your local UPS Customer Service Centre on 03457 877 877. Where the money-back guarantee operates, if we fail to attempt delivery within the applicable time period, we will, on request, refund or credit you (or any other person who paid for the carriage) with the shipping charges (or, in the case that only some of the packages in a multiple package shipment fail to meet the applicable time limit, the proportionate part of the shipping charges relating to those packages), net of any surcharges, VAT, duties, taxes or levies, provided that the following conditions are fulfilled:

a) Shipping documentation (including labels) must have been correctly completed and the relevant package must bear the paper labels produced by UPS online shipping solutions or otherwise in accordance with the UPS packaging guidelines;

b) Any other documentation required by the country of origin or destination or any country of transit must be fully and accurately completed and included with the package;

c) If applicable, the package must bear a Saturday Delivery routing label (for destinations to which this service is available);

d) The shipment must have been tendered to UPS on or before the latest collection time specified by UPS for guaranteed delivery;

e) You must have notified your request for claim to UPS in writing or by telephone within 15 calendar days from the date of scheduled delivery and advised us of the receiver's name and address, date of shipment, package weight and the UPS tracking number;

f) The shipment must not require additional handling, be subject to the Oversize Pallet Charge or include a Large Package, as described in the Additional Services and Charges section in this guide.

g) The shipper must provide Timely Upload of all applicable information to UPS. Timely Upload as used in these Terms refers to the electronic transmission of all applicable information (including, but not limited to, consignee's full name, complete delivery address, and shipment dimensions and weight) to UPS 15 minutes before the latest collection time specified by us for guaranteed delivery.

The guarantee does not apply when late delivery results from the package not complying with the restrictions and conditions set out in Paragraph 3.1 of our Terms and Conditions of Carriage, from events beyond our control (as set out in Paragraph 6 of our Terms and Conditions of Carriage) or due to any suspension of carriage or return of a package as provided for in Paragraph 3.3 of our Terms and Conditions of Carriage or the exercise of any lien by UPS in accordance with our Terms and Conditions of Carriage.

For the avoidance of doubt, the liability of UPS under the money back guarantee is limited to the above and the guarantee does not otherwise constitute any form of undertaking or representation that the shipment will arrive by any particular time.
Liability

Liability for loss, damage or delay

The following is a summary for information purposes of certain relevant provisions of the UPS Terms and Conditions of carriage. The full terms are set out in the Terms and Conditions of Carriage and prevail in case of inconsistency with the present summary.

International Carriage:
Where carriage is international, international conventions may apply: in particular the Warsaw or Montreal Convention in the case of carriage by air and the CMR Convention in the case of carriage by road. The national laws of some countries may also extend the rules of such conventions to purely domestic carriage.

Where they apply, the rules of the Warsaw, Montreal and CMR Conventions govern and in most cases will limit our liability for loss, damage or delay to a shipment.

– the Warsaw and Montreal Convention limit is usually 19 Special Drawing Rights¹ (SDR's) per kilogram of the goods affected
– the CMR Convention limit is 8.33 SDR's per kilogram (but restricted to the amount of the carriage charges in the case of delay)

Other Carriage:
Where Convention rules do not apply, we will only pay compensation for loss, damage or delay of a package caused by our negligence and only up to a maximum of:

– GBP 60.00 per shipment; or,
– if greater, 8.33 SDRs per kilo of the goods affected, subject (as in all cases) to proof of loss.

You may obtain the benefit of a greater limit of liability by declaring a higher value for carriage on the UPS shipping documentation and paying a corresponding additional charge. If you declare a higher value for carriage and pay the applicable charge, then UPS's liability shall be limited to proven damages not exceeding the sum so declared (see under Optional services).

The value of the goods concerned shall not in any event exceed USD 50,000 (USD 2000 in the case of jewellery or watches other than costume jewellery or costume watches) or its local currency equivalent per package in a small package shipment, or USD 100,000 or its local currency equivalent per pallet in a Worldwide Express Freight shipment, as UPS does not offer carriage for goods with values above these amounts.

Except when Convention rules or other mandatory laws apply and require otherwise, we will not pay compensation for purely economic losses (such as loss of profits, loss of business opportunities or loss of revenue resulting from loss of use), even if a value has been declared for carriage in respect of the relevant shipment. We will also not be liable for any damage to or loss of packaging or pallet skids.

Any claim against UPS must be notified to us in writing as soon as possible and also within any specific time limit set out in our terms and conditions. In certain circumstances, Convention rules (if applicable) may permit a claim to be pursued against UPS outside these periods.

In addition to the above, any legal proceedings in respect of a shipment must be commenced and served on us within eight months of delivery or (in the case of non-delivery) of the due date for delivery. If the Warsaw, Montreal or CMR Conventions apply, there are longer time limits for the commencement of legal proceedings: in summary, 2 years in the case of the Warsaw and Montreal Conventions and 1 year (3 years if there is wilful misconduct on UPS's part) in the case of the CMR Convention.

¹ A Special Drawing Right is a unit of account adopted by the International Monetary Fund. The current value of an SDR is regularly published in major financial newspapers.
This is the current version as at the date of publication of this Guide. The latest version, which shall always be the applicable one for new shipments, may be found at www.ups.com or obtained from a UPS Office.

UPS Terms and Conditions of Carriage

1. Introduction

A. These terms and conditions ("Terms") set out the basis on which UPS will transport packages, documents and valuables ("Packages") and palletised goods ("Pallets", pallets and packages are together "Shipments"). These terms are supplementing the currently applicable UPS Service and Staff Guide ("The Guide"). The Guide contains important details about the services of UPS which the shipper should read and from which part of the agreement between UPS and the shipper.

B. Depending on the country where the shipment is presented to UPS for carriage, the term "UPS" will mean the branch of the company in that country that will accept the shipper's instructions on its disposition or to identify the shipper or any other person entitled to the goods or package, and, if UPS does suspend carriage for a reason allowed by these terms, UPS shall not be liable for any loss howsoever arising which the shipper may suffer in connection with the carriage by UPS of such packages. Unless UPS is notified otherwise, UPS shall be deemed to have given the receiver or any third party sufficient notice of the contents of the shipper's instructions on its disposition or to identify the shipper or any other person entitled to the goods or package.

2. Scope of Service

Unless any special services are agreed, and subject to these terms, the service to be provided by UPS is limited to the collection, transportation, customs clearance when applicable, and delivery of the shipment. The shipper acknowledges that shipments will be consolidated with those of other shippers for transport and that UPS may not monitor the inbound and outbound movement of individual shipments. UPS is not a common carrier and reserves the right to refuse carriage to any shipment tendered to it for transportation.

3. Conditions of Carriage

This section sets out the limitations and conditions which apply to the carriage of shipments by UPS in accordance with these terms. Any such limitations are in addition to any limitations that apply to the shipper's customs clearance fees and such other duties as may be imposed on or connected with the carriage of the Shipments.

3.1 Refusal and Suspension of Carriage

A. If it comes to the attention of UPS that any shipment does not meet any of the above restrictions or conditions or that any COD amount stated on a COD Waybill exceeds the Weight Limit stated on the Waybill (or in the case of Prepaid or COD shipments, the maximum COD amount set forth in the regulations of UPS or any relevant party thereto), and it carries in progress, UPS may suspend carriage and hold the shipment (or any relevant part thereof) to the shipper's order.

B. UPS may also suspend carriage if it cannot effect delivery, if the receiver refuses to accept delivery, if it is unable to effect delivery because of an embargoed status (having used all reasonable means to deliver to the correct address), or because the correct address is found to be in another country from that on the shipper's shipment on the Waybill if it is called to cease due to the receiver's delivery. If (where UPS is entitled to suspend carriage of a shipment (or any relevant part thereof), it is also entitled to return to it at the shipper's discretion.

C. The shipper must pay any reasonable costs and expenses (including storage), incurred by UPS, any tests, inspections or analyses of the contents so described and classified and are accompanied by such documentation as may (in each case) be necessary to make them suitable for international carriage by air in accordance with the provisions of the Warsaw Convention or the Montreal Convention, to effect delivery of the shipment to the correct destination, or to return the shipment to the shipper at the shipper's expense.

3.2 Liability

A. The shipper hereby undertakes to pay the amount of any such penalties, or any of them, that may be incurred on or in connection with the carriage of the package, shipment or the service thereof) and to indemnify, defend and hold UPS harmless from all claims, causes of action or proceedings, whether or not acknowledged or contested, arising out of the carriage or transportation of the package, shipment or the service thereof by UPS in accordance with the terms of these Terms unless the shipper proves that UPS was negligent or that any loss was caused by UPS's failure to exercise due care.
6. Interruption of Service

_in the event of any shipment from the shipper or, if any shippers or from the shipper or, if any are dropped or damaged, the shipper consigned to the carrier for carriage shall not in any event exceed the value of the goods or the carrier's liability shall be limited as above.

Integrated Logistics

UPS’s logistics expertise extends beyond transportation networks and into the broader supply chain. We can help you design, engineer and gain maximum benefit from your supply chain.

Our services are supported by leading edge IT systems which facilitate effective integration between you and your suppliers and give visibility of stock and shipments at key points in the supply chain.

Dission of and Order Fulfillment
Reduce overall cycle time with our distribution and order fulfillment services, including cross dock, pick and pack, kitting, final stage assembly, configuration and store-ready services. UPS also has over 3 million m² of distribution and warehousing space and approximately 1,000 sites in more than 120 countries. This allows for optimal staging of your inventory, which helps speed transit and lower overall transportation costs.

Post Sales Services
Our global service parts logistics network with its 950 field stocking locations is designed to speed up the movement of parts through the supply chain with same-day carrier and next-flight-out options. You have product visibility throughout, with parts inventory information available online 24 hours a day, 7 days a week. Together with our reverse logistics services, the overall result is increased speed, flexibility and operational efficiency.
